

4392 04.01.2018 Car Park Charges and Fines

I would like to know where the revenue from car parking fees incurred by patients, visitors and staff on the UHCW site is facilitated and appropriated. I would also like to know where the revenue from fine incurred by visitors and staff for parking “illegally” is also appropriated.

University Hospital:

All car parking including staff and visitors, forms part of the Private Finance Initiative Contract and as a result the hospital does not generate any car park revenue from either staff or visitors - however, the benefit to the Trust of including car parking in the Private Finance Initiative scheme, meant that the Trust had a reduction of its Private Finance Initiative Unitary Payment in 2017.

Hospital of St Cross Rugby:

The Trust does retain the car park income less 20% VAT.

Car Parking at the Hospital of St Cross for 2016/17:

	Staff	Patients	Total
2016/17	£133,998	£204,194	£338,192

This income was used to cover:

- **Car park security**
- **Operating costs**
- **Maintenance**
- **Snow clearance**
- **NHS capital charges (similar to interest above on public funded schemes)**
- **Depreciation**
- **Lighting**
- **Uniform Business Rates**

The Trust does not receive any income from Parking Charge Notices.
