The catering provider for the University Hospital of Coventry and Warwickshire is ISS Facility Services Healthcare, who use a number of authorised suppliers to provide consumables such as disposable drinking cups. They have approached their suppliers for the information requested but, due to the record keeping of different suppliers it is unable to provide a breakdown detailing each of the last five years.

The total of these various lists provides us with a figure of 2,695,280 over a three year period. Whilst this is not perhaps a full record for the past five years, as requested, it is the best answer we can provide with the records available.
