

The Centre for Hearing and Balance Disorders Clinic 8

Access to an ENT Consultant following Transition to Adult Services at the end of Year 11

Today is your final yearly hearing assessment as you will now be transferred to the Adult Audiology Services. If you have future concerns regarding your hearing then you should go to your GP and ask for a referral to the ENT consultant.

Following transition to adult services you should no longer access your ENT consultant via your paediatric audiologist as you will now be considered an adult.

If you have not seen an ENT consultant for over 12 months then you should go to your GP and ask for a re-referral. This is the quickest way of being seen by ENT (6 weeks)

If you see your ENT consultant regularly then you should phone his secretary at your local hospital and ask for an appointment.

If you have been referred to the ear care nurse for routine wax removal then you can continue doing this into adult services.

If you have any further queries about access to ENT then please contact your named audiologist Joanne Stanley (Adult Services) or Verity Hill (Paediatric Services) on 024 7696 6444.

Accessing Audiology and ENT services when you are away at college/university

This will naturally vary depending on where you attend university.

We recommend that you register with your student medical practice and find out via the doctor (before you need it) where the local Audiology and ENT Departments are.

You are still able to use the Adult Audiology services in Coventry for your regular hearing aid/ear mould support and maintenance.

The Trust has access to interpreting and translation services. If you need this information in another language or format please contact 024 7696 6444 and we will do our best to meet your needs.

The Trust operates a smoke free policy
