

Cardiac Services

Heart Failure Nurse Service

A shared approach to heart failure care within Coventry and Rugby

Who are we?

We are a team of specialist heart failure nurses who work within the Coventry and Rugby area. We support patients and their family or carers with heart failure management in the hospital and the community.

Where is the service provided?

- On the ward if you are an in-patient
- Heart failure clinic
- Home visits

What do we do?

We will:

- Help you, your family or carer understand and manage your condition
- Give healthy lifestyle advice
- Explain the benefits and side effects of your medications
- Clinically examine you and take blood tests if necessary
- Work with your GP and cardiologist
- Refer you to other health professionals as appropriate

Patient Information

What can I do to help myself?

- If directed by your heart failure team limit all drinks to 1.5 – 2 litres per day
- Weigh yourself daily and if you increase by 2-3lbs (1kg) overnight, or by 4-5lbs (2kg) over 3-5 days call your heart failure nurse, GP or out of hours service at weekends
- Take your medications as prescribed and make sure you do not run out of them
- Eat a healthy balanced diet, low in saturated fat and salt
- Keep your alcohol intake to the recommended guidelines: 14 units a week for men and women
- Ask your practice nurse for advice or help with weight management or stopping smoking
- Have your flu vaccination every year, along with your COVID Vaccine and your 'one-off' pneumonia vaccination
- Call your heart failure nurse if you go into hospital or if there are any changes to your medications or you have any questions.

We are here to support you
