Mrs Tomlins' / Mrs McEvoy's Secretary: 024 7696 5275

Mr Robertson's / Mr Al-Omishy's Secretary: 024 7696 5276

Patient Information

What can you expect from your Breast Care Nurse Specialist?

Your **Breast Care Nurse Specialist** is an experienced qualified nurse who has undertaken specialist training in the care of patients with breast cancer. The nurse is normally present at your consultations.

The treatment of Breast Cancer varies from patient to patient and could include Surgery, Radiotherapy, Chemotherapy, and Anti Oestrogen treatments (Hormone Therapy). Some people will have some or all of these treatments.

Your Breast Care Nurse Specialist will be available at any point during your treatment to offer advice, support and information to you and your family/carer. They will discuss your treatment options with you.

All members of the **Breast Multi Disciplinary Team (MDT)** meet on a weekly basis to discuss treatment options. Your Breast Care Specialist Nurses regularly attend this meeting and so they are fully informed about your treatment plan. In addition your GP is kept informed of your progress as the team will liaise with them.

A **Holistic Needs Assessment** can be completed, this takes into account your practical, family, emotional, spiritual and physical needs and is a good way of making sure that all your needs are being met. Please discuss this with your Key worker if you wish to have this service.

The Trust has access to interpreting and translation services. If you need this Information in another language or format please contact us and we will do our best to meet your needs.

The Trust operates a smoke free policy
