1. Expect your skin and urine to have a yellow discolouration. This may last from 24-48 hours, particularly with the Fluorescein Angiogram. You should drink plenty of fluids and everything will return to normal quite quickly.
2. Your vision will be blurred for most of the day, so do not drive or operate machinery.

If you experience any breathing problems or chest pains, call for an ambulance at 999.

If you experience any other problems that do not resolve, contact your GP or phone 111 for advice.

Contact telephone numbers:

If you require any information on your eye condition then ring the Retinal Nurse (Jas) on 024 7696 4000 and ask for bleep 2828, please stay on the phone until you are connected.

The Trust has access to interpreting and translation services. If you need this information in another language or format, please contact 02476966464 and we will do our best to meet your needs.

Emergency eye appointments: New booking system

If you have an urgent eye problem, you can now book an on-the-day telephone consultation via the Eye Emergency Referral Service (EERS).

Scan the QR code or visit www.uhcw.nhs.uk and search Eye Emergency Referral Service. You can book a telephone consultation via this link.

You will be spoken to by an expert clinician who will give you specialist advice on the next steps to take. Please provide a phone number which you can be contacted on for the consultation. Please also be aware that you will be phoned as close to the allotted time as possible, although at busy times unfortunately there may be a delay.

In the event that you feel you cannot wait to speak to someone, or do not have online access, then you may call 0247 696 4800.

This phone line is open 9am - 1pm; 1.30pm - 5pm (Monday - Friday, excluding bank holidays) and 9am - 12pm (Saturday).

Please only attend the Eye Outpatient department if you have had a telephone consultation in advance and have been advised to attend.

In the event of an eye emergency out of hours, please attend the minor injuries unit at UHCW.
